March 4, 2020

Dear Parent/Guardian,

Please know that the Woodhaven-Brownstown School District is working closely with the Wayne County Health Department, www.waynecounty.com, and Centers for Disease Control and Prevention, www.cdc.gov, so that we can stay current with the latest information regarding the COVID-19 (coronavirus) concern.

While there is currently no vaccine to protect against COVID-19, experts advise that the best way to prevent infection and avoid being exposed is through everyday best practices:

- Staying home if sick; if feeling ill, seek medical care
- Cover your cough or sneeze with a tissue or sleeve
- Frequent hand washing with warm soapy water for at least 20 seconds
- When soap and water is not available, use hand sanitizer to wash hands

As state, county, and local agencies begin to formulate plans to address the possibility of a potential widespread outbreak, our administrative team is also monitoring developments related to COVID-19. We have been in contact with other educational agencies such as the Michigan Department of Education, Wayne RESA, the Michigan Association of School Administrators, and others in developing protocols and procedures that will prepare our school district in the event of a widespread outbreak in our community.

This communication is not meant to induce panic; it is simply meant to assure you that we are closely monitoring this serious topic, following the recommendations of the community health agencies, and to serve as a reminder to continue to employ best practices for prevention. As needed, we will continue to provide you with information and updates as they develop.

Sincerely,

Mark Greathead
Superintendent
Woodhaven-Brownstown School District
